

# **Uninterruptible power supply box quotation**

## Overview

---

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

What is SCU rack-mounted UPS power supply?

SCU rack-mounted UPS power supply, united with lithium ion battery, has small size but large capacity. Our uninterruptible UPS power supply rack-mount is with lithium-ion battery access, good performance and manageability. If need rack mount battery backup, quote our rack mountable UPS now!.

How does an UPS system protect equipment from a power surge?

Surge Protection: UPS systems can protect equipment from power surges and spikes caused by lightning strikes, power outages, and other events. The UPS system intercepts the surge and diverts it away from the equipment to prevent damage.

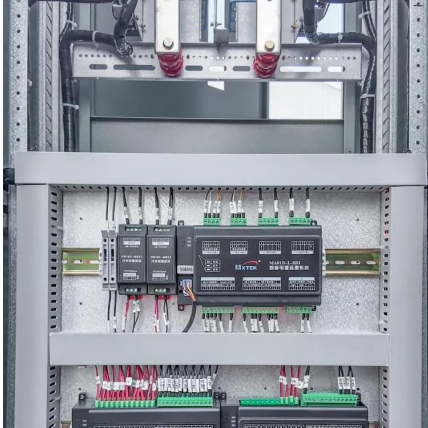

Why do you need an ups power supply system?

They are essential components in data centers, hospitals, manufacturing plants, and various critical business operations. A UPS power supply system is an indispensable asset, offering a range of essential power services to shield your equipment from power disruptions, outages, and surges.
