Uninterruptible power supply is AC

Uninterruptible power supply is AC

[Uninterruptible Power Supply: What It Is and How It Works](#)

An uninterruptible power supply (UPS) or uninterruptible power system is an electrical unit that provides power for computers, telecommunication equipment, etc. It not only ...

[Free Quote](#)

System Solution Guide

The uninterruptible power supplies protect the connected equipment from power problems and provide battery backup during power outages. Additionally, they protect against damage to the
