# **Which companies have energy storage batteries in Oslo**

## Overview

---

Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. “There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It’s the key to turning intermittent wind and solar into a stable energy source,” explains Pål Runde, Head of Battery Norway.

Who are the top 10 battery manufacturers in Norway?

This article will introduce the top 10 battery manufacturers in Norway , such as Morrow, FREYR Battery, and TECO 2030.These companies have made significant achievements in technological innovation, sustainable production, and international cooperation, contributing not only to the Norwegian economy, but also to the global green transition.

Why is Norway a leader in battery manufacturing?

As a pioneer in the clean energy sector, Norway has also shown strength in battery manufacturing. As the global demand for sustainable energy solutions grows, Norwegian battery manufacturers are at the forefront of this change.

What is battery Norway?

Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain. It will closely follow the EU’s battery strategy and act as an advisor to the authorities.

Battery Norway aims to help to:
